FRONTIER SYSTEM H7

Fifteen models in a variety of magnifications and reticle designs offer supreme accuracy for rifle shooting and hunting applications.

All models feature Hawke's H7 optics with high zoom ratio, supreme clarity and light transmission.

Available in First Focal Plane (FFP) and Second Focal Plane (SFP).

Wide Angle FOV / High volume eyepiece / 4 inch eye relief / Multi-LED high intensity reticle / Exposed Zero Lock 'n' Stop elevation turret or no-snag capped turrets / High grade, low dispersion Crown glass / 21 layer Fully Multi-Coated lenses / Zoom magnification throw lever (removable) / Fast focus eyepiece with lock ring

Supplied with Professional metal flip-up covers.

Nitrogen purged / Shockproof / Waterproof / Fog proof / All caliber rated

Hawke No-Fault Lifetime Warranty

SIDEWINDER SYSTEM H5

Our best selling scope just got better!

Sidewinder is the must-have high performance multi-discipline scope. Parallax-free shooting from 10 yards to infinity assisted by an index matched rangefinding side wheel (removable).

All models feature Hawke's H5 optics which boasts a stunning 24° ultra-wide field of view with generous 4 inch eye relief. Precision locking turrets with 1/10 MRAD or 1/4 MOA clicks, now feature a witness window giving you an instant visual guide to your turret's position.

Available in First Focal Plane (FFP) and Second Focal Plane (SFP).

Ultra-wide Angle 24° FOV / High volume eyepiece / 4 inch eye relief / Resettable locking turrets with witness window / Side wheel - index-matched (removable) / Multi-LED high intensity reticle / High grade, low dispersion Crown glass / 18 layer Fully Multi-Coated lenses / Zoom magnification throw lever (removable) / Fast focus eyepiece with lock ring

Nitrogen purged / Shockproof / Waterproof / Fog proof / All caliber rated

Hawke No-Fault Lifetime Warranty

FRONTIER SYSTEM H7

All Frontier models feature Hawke's H7 optics, offering stunning high definition viewing with incredible color control and phase correction. High performance lens coatings and Dielectric Coated prisms ensure the highest level of light transmission.

The Frontier APO offers extreme clarity, flat field vision along with excellent chromatic aberration control for a stunning wide angle image.

APO & ED X models benefit from Extra-low Dispersion glass for controlled chromatic aberration and the elimination of color fringing.

Extra-low Dispersion glass (APO & ED X only) / Dielectric Coatings / High resolution phase corrected BAK-4 roof prisms / Water repellent lens coatings / Magnesium alloy chassis / Focus from 6.6ft / Replaceable twist-up eye cups with position stops / Stay-on lens covers / 1/4 inch tripod adapter thread

Nitrogen purged / Waterproof / Fog proof

Hawke No-Fault Lifetime Warranty

ENDURANCE SYSTEM H5

Stunning optics providing crisp, clear and bright images with enhanced light transmission.

Endurance models benefit from our System H5 optics. ED glass is utilized to reduce color fringing. The Fully Multi-Coated lenses provide high resolution images which ensure no details are lost when viewing at distances down to 6.6ft.

Effortless focusing and impressive depth of field makes these binoculars quick and easy to use. Water and fog proof with a high grip rubber coated body, Endurance is designed to battle the elements.

Extra-low Dispersion glass (ED models) / High resolution phase corrected BAK-4 roof prisms / Focus from 6.6ft / Twist-up eye cups with position stops / Stay-on lens covers / 1/4 inch tripod adapter thread (excl. 25mm models)

Nitrogen purged / Waterproof / Fog proof

Hawke No-Fault Lifetime Warranty

NATURE-TREK SYSTEM H2

An extensive range of binoculars in several configurations.

The Nature-Trek family utilizes our System H2 optics produced in a shock resistant polycarbonate body, providing a robust yet lightweight package. The high grip rubber armor ensures a secure hold in all weather conditions.

Optics are crisp and clear with notable natural color reproduction. The precise focusing wheel allows focusing down to 6.6ft.

Nature-Trek offers a complete range of binoculars from the very portable 25mm models up to the oversized 50mm models, ideally suited to low light conditions where a large exit pupil diameter is required.

Fully multi-coated optics / High resolution phase corrected BAK-4 roof prisms / Focus from 6.6ft / Twist-up eye cups with position stops / Stay-on lens covers / 1/4 inch tripod adapter thread (excl. 25mm models)

Nitrogen purged / Waterproof / Fog proof

ENDURANCE SYSTEM H5

Endurance ED spotting scopes provide the performance to get close to the action and the durability you demand.

All magnifications are constructed with ED glass reducing the potential for chromatic aberration. ED glass controls color fringing and allows an improvement in clarity and crispness of the image, highly recommended by nature enthusiasts.

All lenses are Fully Multi-Coated and prisms Dielectric Coated for increased reflectivity. Endurance scopes feature a dual focus knob (coarse and fine), 3x ratio eyepieces with twist-up eye cups and retractable sunshades.

Choose from a range of full size scopes with 85mm or 68mm objectives or the compact design with 60mm or 50mm objectives.

All scopes are supplied with lens covers and stay-on soft cases.

NATURE-TREK SYSTEM H2

The Nature-Trek spotting scope family offers exceptional optical performance in a lightweight and waterproof modern design. A Fully Multi-Coated optical system combined with BAK-4 Porro prisms produce extremely clear and sharp images.

The 65mm and 80mm optical systems have been optimized for maximum performance while keeping the scope body short in length making them ideal for hiking and travel. Featuring a rotating tripod band, retractable sunshade and stay-on cover for protection.

The ultra compact 56mm features barrel focusing with twist-up eye piece, delivering 27x magnification in a scope the size of your hand. Supplied with neoprene stay-on case.
